“ To the family, I had the pleasure of being challenged and learning from Mr. Banachowski, at the University of Toledo's ComTech campus, in Industrial Technology. what a good teacher he was, and I am impressed at how "ahead of his time" he was. I often thought he was so comfortable teaching, and that he was almost one of us students. It's like he would have preferred to sit among us, chatting. And, being hearing-impaired, I was able to understand him very well. Also, only a few teachers leave us smiling, like he did. I appreciate the opportunity to leave my thoughts at Ansberg-West, as well.
