“ Dear Family, Oh I am so very sorry for your loss. What a shocker. Donna was a gifted lady with a beautiful smile and always good things to say to me. I will always remember. I heard so many funny things about her when she was a little girl at the home in Rossford where I grew up too. She would sing to everyone. Her musical talents started back then. Her grandma (F) down on Oak treated me special too, she would always talk about her beautiful Donna, Memories I cherish. May God be with you always, Love your cousin, Gina Duris

“ Dear Adam, Heather, and Alexa, All the Toledo Public School Library Media Specialists will remember your mom, and grandma. I had the privilege of following her, my whole library career. In 1985 I went to Leverette Library and in 2004 I went to Rogers Library. There are things that I can only appreciate following her in these libraries. It was Donna's library technical organizational skills. These are the things that make a library run smoothly that the public doesn't see. Donna was proud of her large well organized environmental and vertical files, which were the largest in Toledo Public Schools. Donna will certainly be remembered by all the people she worked with in Toledo Public Schools. Jon Shepard Librarian Rogers High School.
