“ For whatever reason I have found myself remembering the great life I have had and the people who made that possible. In 1979 graduating from university of toledo I worked for Mrs. Silverman landscaping her home. For anyone coming across this message I want to give my condolences and say she was pivotal in influencing me in a very successful life of landscape architecture. I will forever tell stories of my experiences I shared with her I'm forever grateful.

“ Judd, your mom was the reason I make my kids' friends take off their shoes before they set foot in the house...she was a neat lady. You need only look at how well you turned out to see what kind of a great mom she was. Shaffs
