“ Dear Family of Regina: I first met Regina through the Alliance Francaise. Your mother was an elegant, classical lady. Her sense of humor was very European, and being European myself I understood her. She was one of the most intelligent woman I have known. The presentation and making of her food was out of this world. We, in the club always marveled and waited to see what she would bring at each gathering. My life has been enriched by meeting your mother. May you accept my sincere condolences. We will miss you Regina and I, in particular will miss you greatly, it will take some time to adjust to you being gone. " Requiescat in Pace", Regina.
